16

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-14 are, drawn to a protective covering system, classified in class 428, subclass 292.1.
- II. Claims 19-36 are, drawn to a protective covering system with ballistic catching layer of woven fabric, classified in class 442, subclass 188.

17

The inventions are distinct, each from the other because:

Inventions II and I are distinct and separate from each other because Invention I relates to a protective coating system with out woven fabric while Invention II includes woven fabric.

18

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
